ANNUAL SCHOOL CENSUS REPORT 2013-2014

State Ministry of Education and Human Capital Development

Preface

The Y2013/2014 Annual School Census exercise began with sensitization meetings with Public Schools Education Managers and Private Schools Proprietors, which was followed by the update of school list (with support from NGOs), clustering of schools and selection of supervisors/enumerators. The State EMIS Committee then met to deliberate on the modality for the conduct of the exercise. This was followed by the training of supervisors and enumerators, and distribution of questionnaires with the technical and financial support by ESSPIN.

The success of the previous census was manifest in its wide acceptance and use in planning, budgeting, monitoring/evaluation within the MDAs and as source of reference by other users.

This year exercise which was conducted between 24th February to 7th March began with data collection that was monitored by D/PRs across the MDAs and ESSPIN Team. Completed forms were returned and screened for face and content validity. Forms with errors or incomplete data were returned for corrections. The data entry officers were trained in four LGA EMIS nodes, spread across the State, where data entry took place. Data cleansing and analysis took place at the State central EMIS in the State Ministry of Education and Human Capital Development.

There was a great improvement in data quality and slight improvement in private schools participation as a result of the sensitization engagement with the stakeholders. The LGEA EMIS nodes were strengthened and grassroots commitment enhanced with the data entry that took place at the four centres.

The effort of the State Committee on Annual School Census headed by Director Planning, Research and Statistics (MoE&HCD) and members of the team across the MDAs, LGEAs Staff and CSOs; and adequate monitoring facilitated the success of this year's programme.

The Honourable Commissioner,

State Ministry of Education and Human
Capital Development.

July, 2014

Executive Summary

The Y2013/2014 Annual School Census Report comprises information on Public Early Childhood, Primary, Junior and Senior Secondary as well as Private Schools presented in tables and charts. The exercise recorded a 100% response rate for the public schools while a total number of 1128 private schools were captured compared to 1113 last year-an increase of 1.3%.

There is an increase in number of public schools across the education level with 31 newly established schools (9 in Pre-Primary/Primary, 9 in Junior and 13 in Senior Secondary Schools).

Overall enrolment has increased in pre-primary by 4.9%, Primary by 6.2%, Junior Secondary by 4.2% and in Senior Secondary Schools by 5.0%.

The percentage of qualified teachers in public pre-primary and senior secondary schools stand at 77% and 88% compared to 73% and 87% in Y2012/2013 respectively, while the percentage for primary and junior secondary schools are 85% and 93% compared to 87% and 94% in Y2012/2013 respectively.

There is an improvement in pupils - classroom ratio in pre-primary/primary and senior secondary schools which recorded 25 and 34 pupils to a class respectively this year compared to 27 and 36 in Y2012/2013, while that of junior secondary schools is 44 compared to 43 in Y2012/2013.

There are 111,713 pupils/students without seats (50,440 in primary; 33,035 in junior and 28,238, in senior secondary schools) . 1,359 schools are with no source of water (1,003 primary, 214 junior and 142 senior secondary schools respectively). In addition 1,384 schools are without toilets (968 primary, 230 junior and 186 senior secondary schools). Also 636 schools have no health facility (497 primary, 79 junior and 60 senior secondary schools). Lastly, 4,278 classrooms are in need of major repair (2,326 in primary, 763 in junior and 841 in senior secondary schools); and a shortfall of 348 classrooms (307 in primary, 15 in junior and 26 in senior secondary schools respectively) across the state.

Definitions

Dropout rate by grade: Percentage of pupils from a cohort enrolled in a given grade at a given school year who are no longer enrolled in the following school year.

To measure the phenomenon of pupils from a cohort leaving school without completion, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analysing and projecting pupil flows from grade to grade within the educational cycle.

Repetition rate by grade: Percentage of pupils from a cohort enrolled in a given grade at a given school year who study in the same grade in the following school year.

To measure the rate at which pupils from a cohort repeat a grade, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analysing and projecting pupil flows from grade to grade within the educational cycle.

Promotion rate by grade: Proportion of pupils from a cohort enrolled in a given grade at a given school year who study in the next grade in the following school year.

To measure the performance of the education system in promoting pupils from a cohort from grade to grade, and its effect on the internal efficiency of educational systems. It is also a key indicator for analysing and projecting pupil flows from grade to grade within the educational cycle.

Survival rate: Percentage of a cohort of pupils (or students) enrolled in the first grade of a given level or cycle of education in a given school year who are expected to reach successive grades.

To measure the retention capacity and internal efficiency of an education system. It illustrates the situation regarding retention of pupils (or students) from grade to grade in schools, and conversely the magnitude of dropout by grade.

Net enrolment rate: Enrolment of the official age group for primary education (6-11 years in Nigeria) expressed as a percentage of the corresponding population.

To show the extent of coverage in a given level of education of children and youths belonging to the official age group corresponding to the given level of education

Pupil-teacher ratio: Average number of pupils (students) per teacher at a specific level of education in a given school year.

To measure the level of human resources input in terms of the number of teachers in relation to the size of the pupil population. The results can be compared with established national norms on the number of pupils per teacher.
